

Hi, my name is Andrea, and I am a dual degree master's student seeking my MBA and MPP. I hope to work along legislation and perhaps even produce policy. I was a former senator for ASUNM and former athlete for the women's track and field team here at UNM. Previously, I have been able to work for NM state legislation organization, Viente NM, and Rep. Haaland's Congressional District office. I currently work as a Policy Assistant at Albuquerque-based BayoTech. For some background, I come from a suburb outside of Philadelphia called Cinnaminson, and I transferred to UNM Fall of 2019. I am a first-generation American, for my parents migrated to the States from Peru. Some of my interests include environment, cooking, running, watercolor painting, and farmers markets!
