He then asked for a brief report from all Chairs.

### **Discussion Items:**

**GO Bonds** – Wayne started the discussion on GPSA’s efforts to promote the GO Bonds since they benefit us as students. He spoke about the collaboration with ASUNM to spread the word, and efforts from members of Lobos for Legislation.

**University Ethics Policy** – Wayne mentioned his involvement with the University Ethics Taskforce which was formed by President Frank to streamline values across the university. The Taskforce is comprised of members from all constituency groups across campus including GPSA, ASUNM, Staff Council, Faculty Senate, North Campus, and the President’s Office. He passed around the values suggested by the Taskforce and asked for feedback from the E-Board to take back to the next Taskforce meeting. The E-Board made a few grammatical suggestions but endorsed the values overall.

**Turn It In** – Wayne asked Elena to lead the discussion since they had attended a few meetings together to discuss this software. Elena pointed out that a concern had been raised by GPSA’s representative on the Writing Across Curriculum committee who reported that assistantship funding might be affected with the use of this new software. Currently, the software is only being used by Anderson School of Management, School of Nursing, and College of Education. A full discussion was had with the end result being that GPSA does not endorse cutting assistantships to fund the software, and would do all in its power to represent the concerns of our colleagues.
